Parapost XP Burnout Posts

- **Greater Safety** - parallel-sided castings evenly distribute functional stress while eliminating the wedging effect of tapered cast posts.
- **Increased Retention** - parallel-sided, raised diamond-shape retention pattern is incorporated into the cast post, providing additional retention and greater resistance against rotation.
- **Safer Cementation** - multiple venting channels allow an easy escape of excess cement, preventing the build-up of apical hydrostatic pressure.
- **Easy and Reliable Identification** - all system components are color-coded to the drills, ensuring accurate matching of posts to drills.

High aesthetics due to tooth-coloured hybrid abutments. Very good tolerance to the oral soft tissue. Excellent bond stability with Mutilink Hybrid Abutment bonding composite. MO (Medium Opacity) blocks for hybrid abutments in the anterior and posterior area for single tooth restoration. Pack of 5

**Only  
£65**

### 26E Red Wing Lathe

A full 1/4 HP, 1725/3450 rpm two-speed polishing lathe with 6" (15.2cm) shaft height. Designed and built for use as a polishing lathe, its tapered shaft will accept standard dental tapered chucks. Includes a left and right chuck remover for easy removal of chucks. Allows the technician to utilize larger diameter buffing wheels for pumice and dry polishing operations. The 26 is manufactured to provide years of durable service when used for polishing and grinding.

Unit Dimensions.: 15 1/2" L x 8" W x 9 1/4" H (39cm x 20cm x 23cm).

Code

EQ255E

**Only  
£225**

### Bite Rim Blocks

Time-saving occlusal rims which can be easily adapted to shape and carved with a wax knife.

Code

ASD0155

Description

RETOMIX!\*

### RETOMIX MINI

The compact design, in combination with high operational capability, is an economic solution. Plaster, investment materials and alginates are mixed void-free and homogeneously. Easy operation is granted by variable speed adjustment and an electronic timer. Vacuum intensity can be controlled.

Code

REI10607

**Only  
£989\***

### RETOMIX COMFORT

Suitable for the homogeneous mixing of all commercially available materials. Equipped with a powerful vacuum pump and an easy-to-use electronic programmer. Allows the programming of pre- and main-mixing time as well as mixing speed for the material and to store it under its name in 99 programs. Individual adjustment of vacuum intensity.

Code

REI10608

**Only  
£1,125\***

### STEAMY MINI

Suitable for cleaning small items, dental objects and instruments as well as for detailed use on larger objects. Grease, sticky wax, pickling agents, various contaminants and adhesives are gently removed without affecting the object itself. Environmentally safe since no chemicals are needed. Small space is being required due to its compact design.

Code

REI10904

**Only  
£739**

**Up to  
30%  
saving!**

### POLIRET MINI

Compact polishing unit requires very little space. Right mounted steel spindle and is suitable for grinding, polishing, cleaning and brushing of metal and plastic materials. Fully adjustable speed control with a powerful 600 W motor. Dust and waste suction with fleece filter. Emergency switch. Integrated suction system.

Code

REI11100

**Only  
£1,295**

### SANDURET 2, 3 AND 4

Microfine jet blasters offer optimum surface quality for blasting different materials with all commercial abrasives from 25 to 250 microns. Can be used for cleaning, buffing, polishing and removing oxide layers from different surfaces. Water separator and filters avoid unnecessary maintenance and keep downtime to a minimum.

### EyeEvolution

The EyeEvolution® is a light-curing unit based on LED technology. Offering the spectrum ranges of 385 + 470 nm, the unit can be used for all the base materials currently available.

#### Advantages:

- No thermal strain during curing
- Reflective rotary plate to ensure shadow-free curing
- Short curing times due to excellent light performance
- Extremely simple time-controlled operation
- Almost unlimited LED service life
- New attractive housing design.

#### Code

DRE38100

**Only  
£456**

### MultiSpot

A mobile curing unit for dental technicians which stands out for its versatile applicability and easy handling. When it comes to complex and tricky working steps, where a "third hand" would be desirable, Multispot® can help. The lamp can be used for all dental materials and therefore offers considerably more working comfort and saves a lot of time. Light-curing materials are fixed and cured immediately by simultaneous use of UV and blue light.

#### Code

DRE38110

**Only  
£195**

**FREE** 4 x flask baskets, 1 x 2.5kg Unisol E, 3 x 5L Unisol W, AND 10 x filter mats included!\*

### Labormat SD

Boiling out of flasks and polymerization of dental resins - all in the same unit! Robust and compact - in a stylish stainless steel housing looks good in any lab.

#### Advantages:

- Hand spray gun
- Spray time can individually be adjusted by 6 minutes timer
- 24 h timer enables the machine to preheat automatically giving sufficient time before starting work.
- Stepless regulation of temperature 0-95°C.
- Moment push button switch for short scalding.

#### Code

DRE3601

**Only  
£2,895**

### Dublisil

Addition-curing vinyl polysiloxanes for all application fields in dental duplication technique, with final hardness 15/20/22/30 Shore A. The practical mixing method and the very thin flowing consistency ensure excellent duplicated models down to the very detail.

#### Advantages:

- Forms are virtually shrinkage-free and show an outstanding storage stability
  - Highest quality standards are achieved by the optimum matching of the materials with the Dosper dosing units
  - Excellent mechanical characteristics provide for a very smooth deflasking.
- 2 x 1kg.

| DRE4533 | Dublisil 22 Plus  | <b>£49.95</b> |

**FREE** Castdon Starter Kit included!\*

### Polymax 5

Pressure polymerisation unit with a temperature range of up to 95 °C, with infinitely variable pressure from 3 to 6 bar. Due to a particularly large pressure pot volume also suitable for large articulators, 3 brass flasks including clamp resp. 4 Castdon flasks.

#### Advantages:

- Especially large pressure pot volume suitable for large articulators
- Continuously adjustable pressure of 3 to 6 bar. Includes pressure hose and water drain hose.
